SOUTH PARIS

Special Town Meeting
A vote not to raise money for the three-town road leading from South Paris through Hebron to Minot was carried by a large majority at the special town meeting held Wednesday afternoon. The same result was recorded at the annual March meeting. Many citizens believing it for the best interests of Paris and Hebron to rebuild the highway under state aid petitioned for a meeting to re-consider the question. Arguments on both sides were well sustained. The question of increased taxation for Paris, whose tax rate is said to be the highest in Maine was the chief argument defeating the re-building project.

How he boarded the train at Lewiston; alighted at South Paris and drifted into Norway is a mystery to him.

He was committed to jail for a short term.

John B. Ratto Will Entertain

John B. Ratto, who will appear here on the Lyceum course Thursday evening, March 23 is one of the great impersonators on the Lyceum platform today.

Mr. Ratto makes up before the audience before each characterization. Mr. Ratto's programs comprise impersonations in "make-up" of many different characters, but the program is so well connected that one character after another follows in logical order.

Mr. Ratto is a psychologist and his programs are always presented with due regard to the requirements of the times. While most of his program is of humorous tone, here and there he slips in a touch of pathos that never fails to score heavily and brings handkerchiefs to the eyes of many. Sunday. Service at 10:45. Sermon, "Crippled but Crowned" or "The Change Wrought by Seeking God." Bible school at 12. Evening meeting at 7 at the home of Frank Dow, Hicks Crossing. Come and hear the word of God.

Mrs. Nellie Rines of Haverhill, formerly of Norway, went to her bakery early to make bread and was straitening dough which had become caught in one of the electric rollers of the bread mixer, when her right hand was caught. She screamed which attracted the attention of two bakers who rushed to her assistance, and after one turned off the power she removed her hand. At the Gale Hospital it was found that the fingers were so badly crushed that the thumb and three fingers were amputated. A part of the little finger remains. The hand was crushed nearly to the center of the palm. Mr. and Mrs. Rines and family lived in Norway many years where they conducted a bakery business. They moved to Haverhill, Mass. several years ago, and since the death of Mr. Rines a year ago, she has carried on the bakery business and has been very successful.

IS It "Just a Cold"?

Norway People Should Ask Themselves
This Question

Don't say: "It's just a cold."
It may turn into backache, rheumatic aches, aching joints
Or other serious sickness that comes from weak kidneys.

Colds are due to congestion.
Congestion makes the kidneys over-work to filter the blood.
Colds often leave the kidneys weak.
First break the cold;
Then use Doan's Kidney Pills to avert the kidney dangers.

Let this Norway resident tell you about them.
W. O. Needham, ret. farmer, 230 Main St., says: "At different times when I have taken a cold my kidneys were affected. I began using Doan's Kidney Pills when I felt that my kidneys needed a tonic. Doan's always strengthened my kidneys and cleared my system of the excessive uric acid. I always feel better in a short time after using this remedy. I always get my supply at F. P. Stone's Drug Store." (Statement given July 24, 1908.)

On September 3, 1920 Mr. Needham said, "I haven't changed my good opinion of Doan's Kidney Pills since recommending them many years ago. Doan's benefited me greatly."

Mark Perry was out to town meeting the first time for seven weeks.

Mrs. Lizzie Spears and Mrs. Harry Saunders are both sick.

Clarence E. Jones

It was the privilege of the writer of this sketch to have known Mr. Jones from early boyhood. As a student he was diligent, conscientious and self-reliant, and these characteristics marked him through life.

He was the son of Aaron and Elizabeth Jones of Sweden, who were among the most respected and substantial people of the town in which they lived. There were four sons and one daughter in their family. Clarence, the youngest son, remained on the home farm and with his wife, who was Luella Whitehouse of Sweden, and before her marriage a teacher, and his twin sister, Clara, dutifully cared for his parents in their declining years.

Mr. Jones was deeply attached to his home and put the energies of hand and brain into his farming. That he was successful, his well filled fields and rock-free acres bear witness. He was possessed of a keen sense of humor and a mind capable of appreciating the highest and best in literature and, having a retentive memory, he often gave selections at neighborhood gatherings and elsewhere.

As the writer stood with him, one autumn afternoon, in a field where shocks of corn stood thick around and yellow pumpkins dotted the ground, he looked off across the lake to the beautiful mountain view beyond and repeated a poem in his own impressive manner which expressed the sentiments of one awake to the beauty and charm of the scene, and the thought came to me "How rarely one finds a man, toiling early and late, still finds time to learn these gems of thought that express the beauty and the joy he finds linked with that toil." He was a student of the fields, woods and hills, grasses, and rocks. He knew many of them, and had a good collection of rocks and minerals and could talk interestingly of them.

In politics, Mr. Jones was a Republican but above all a patriot, taking an intelligent interest in national and state affairs, was always active in town affairs and had held office of selectman, treasurer and school supervisor. Having once decided on the right course to pursue, he took it and held it unwaveringly.

Mr. Jones had the typical New England reticence in regard to his own affairs and never meddled with those of his neighbors, yet was always ready to help in time of need. Undemonstrative by nature, he had underneath it all a deep and true affection for family and friends. In his early manhood he joined the M. E. Church of Sweden, but later united with the Lovell Congregational Church, it being more convenient for him to attend there. He was a past master of Sweden Grange.

For some time previous to his death he had been afflicted with a serious heart trouble and it is thought the tragic death of his only son, Neal, last September, by the accidental discharge of his own gun, hastened Mr. Jones' death. Mr. Jones was sixty-two years of age and had spent all his life, except the last few weeks, in the home where he was born. One brother, Dean, and his sister, Clara both of Charlestown, Mass., and his wife survive him. The sympathy of friends and neighbors is extended to Mrs. Jones in her double bereavement.

BATES—WEST PARIS

Oxford County Pomona met here Tuesday, March 7. About 250 people were in attendance. A good time was enjoyed, a good dinner and plenty of it. Those who came from up the line were served supper too, about twenty of them. The program was good, consisting of readings, vocal and instrumental music and a tableau. The speaker was Benj. Tucker who spoke on Tuberculosis cow testing. He is employed by the State and has had considerable experience in this line of work.

An interesting Grange meeting was held March 11. There was a debate, question, "Resolved that dogs are a nuisance." Mrs. Iona Andrews assisted by Rev. H. F. Aldrich were on the affirmative. Rev. H. A. Markley and William Littlehale on the negative, all members present took part on the final. Question was settled by vote for the negative. There is a literary contest being started with Leona Marston and William Littlehale for captains. The next meeting is to be an all day meeting with speaker, Rev. Geo. E. Kinney of Auburn, chairman of the Auburn School Board. His subject will be Americanization. It will be an open meeting during the program.

Word has been received of the marriage in Washington D. C. on Feb. 21 of Rev. Dwight A. Ball and Mrs. Katherine Haskell, both of Kinston, N. C., by the Rev. John Van Schaick. Both Mr. and Mrs. Ball are well known in Maine. Ball was the State Superintendent of Universalist churches of Maine, going to Kinston about a year ago to engage in missionary work. Mrs. Ball was an active worker in Congress Square Universalist church, Portland until she also went into southern missionary work.

LaBay-Barden

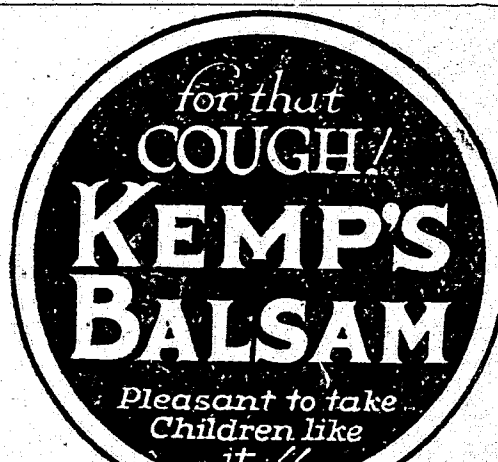

A quiet home wedding took place at the home of Mr. and Mrs. C. F. Barden on Wednesday evening, Feb. 22 at 6:45 o'clock, when their elder daughter Laura, was united in marriage to Earl R. LaBay of Island Pond, Vt. The double ring service was used, Rev. C. G. Miller of South Paris officiating.

The brides gown was of Harding blue, pussywillow taffeta with georgette and bead trimming. She carried blush roses. Only the immediate families were present. Mrs. LaBay is well known and has a host of friends. Some of her most intimate friends discovered the wedding hour and gathered a crowd who escorted them with cornet and other musical instruments from the wedding place to the station where they took the west bound train and showered them well with confetti, rice and best wishes. Mrs. LaBay is a graduate of Hebron Academy, class of 1912 and has been employed as clerk in Hebron, West Paris, Rumford and South Paris Post Offices. She has also done bookkeeping.

Mr. LaBay is a graduate of Lynden High school and is now employed as mail clerk on the Grand Trunk R. R. They are hoping in the near future to make their home in Portland but at present Mrs. LaBay is staying with her aunt Mrs. Currier at Bryant's Pond and he has his headquarters at Island Pond, Vt.

Healthier Livestock Better Milk

The dairyman can protect the health of his livestock, keep disease away, secure a better quality of milk, increase the value of his livestock and the size of his cream checks.

How? By disinfecting stables, pens, troughs, mangers, and livestock thoroughly with Fecto; by using Fecto to disinfect the udders of cows, the hands of milkers, milking machines, pails, cans, bottles, vats, separators, strainers, and all receptacles used in the handling and shipping of milk.

Fecto kills the germs of disease and of decay, destroys foul odors, sterilizes and purifies milk receptacles, making them sweet and clean.

Fecto is a clean, colorless, non-poisonous liquid; is ten times more powerful as a germ-destroyer than carbolic acid. Fecto is the ideal disinfectant and sterilizer for use on the farm, dairy, or creamery, because it is non-poisonous when properly diluted; because it does not leave a disagreeable odor; because it is economical.

PHINEAS' PHILOSOPHY

By Win Kimball

Reminiscences of a Summer Vacation
Good weather for a summer vacation. Pick out one of those Mt. or Sea Shore Resorts where the hot weather never appears and you will simmer away like the kettle on the old kitchen range back home.

That good old bed at home looks pretty good after the first night on the horse hair Oyster More in the little two by four kitchenette bedroom on the fifth floor of the Hotel.

The only running water you will see is the surf and that isn't piped into the hotel yet. All the sea shells you imagine have been put in the Oyster More and the number of flies hovering about makes you wonder if they didn't forget to put up the net over the windows of your bedroom.

Every bedroom connected with bath by a long corridor on your floor and you have to get up early or wait your turn peeking thru the bedroom door to see when the coast is clear then making a dash for the bathroom only to find that there are faster sprinters on your floor than you.

If you get to the bath room on time you get a smile from the waitress in the dining room. If you have to wait in line at said bath room you get breakfast in the shadow of an approaching storm from above female.

After an exciting meal you send all your friends postal pictures of the place and tell them what a fine time you are having.

The next event on the mornings program is a bath in the surf where all the beautifully shaped middle aged ladies are trying to imitate the diving girls in burlesque. Spirits rise after your swim and you have a whale of an appetite. Have to hustle back for dinner so as to get in on the first table. The second table get what is left. You got left the first day at dinner.

Speaking of sea view that is all you see. You can look all the way out and know that Spain lies over yonder. Lots of sea to be seen and it is free. About the only free thing around.

If you had brought along your knitting you would be in the swim with the front porch afternoon club and could hear all the gossip of the inmates of your summer sanitarium. Some consolation to know that there are a lot of other nuts that got stung by that attractive summer circular.

Only two blocks or so to the Railroad Station and that is the most exciting event of the day when the train comes in. Makes you feel good to see a lot of other nuts that are booked up for a two weeks stay at the hostelry.

Cheer up only three more days to stay then back to that good old apartment in town and the office job that don't look half so bad as it did before vacation. Hope Mazie the stenog is back on the job before me.

One Reason Why CASCARA QUININE Acts On The Spot

HILL'S C. B. Q. Tablets are best by test. Try this simple experiment:

1. Drop a C. B. Q. Tablet in a glass of clear water.

2. Instantly the tablet begins disintegrating or "breaking up."

3. In 10 seconds the medicinal properties are thoroughly mixed with water.

Thus, Hill's C. B. Q. Tablets act immediately, give relief without delay and begin checking Colds and La Grippe long before ordinary tablets, by actual test, are absorbed by the stomach juices. To prove this, subject other than C. B. Q. Tablets to the test, and observe that in most instances an hour or more is required for complete disintegration.

Demand C. B. Q. Tablets in red box bearing Mr. Hill's portrait and signature. At All Druggists—30 Cents

Do they sometimes eat with abnormal hunger and again show loss of appetite? Are they fretful and irritable at times, with occasional fever and fitful sleep at night, gritting the teeth and tossing restlessly? If so, look out for worms, so common in young children, and often the undetected cause of anxiety to parents. For more than sixty years the true "L.F." LUCKY AND UNLUCKY DAYS

Study of Statistics Will Enable Almost Any One to Justify His Pet Belief.

Cold, hard statistics prove that the greatest number of premier awards for gallantry were won on Monday.

No other day showing anything like the same record, though the much-maligned Friday stands out noticeably.

Which fact gives some color to the superstitions many people have about certain days of the week being lucky, while others are unlucky.

Tuesday seems to be the bad day of the week; calamities are far more common on that day than on any other day. Railway disasters, fires, street accidents—the record in each case is held easily by Tuesday. And it is the day most favored, too, by those who desire to put an end to their existence.

Saturday also has a bad reputation; its specialty is murders; and fully half the petty crime that is dealt with in the police courts occurs on that day. But probably that is because Saturday also holds the record for drunkenness.

There is nothing very distinctive about Thursday beyond the fact that it is the day upon which the birth-rate is highest; and Sunday is noticeable only for its low death-rate.

Wednesday is, above all the rest, the day of weddings. This applies to all classes, and nearly as many marriages are celebrated on that day alone as upon any three of the others.—Montreal Herald.

WANTED TO "GO IT ALONE"

Many Years Ago Missouri Declared Her Ambition to Become an Independent Republic.

Missouri once had intention of setting up as an independent republic by herself. The Session acts, state of Missouri, 1833-1839, contain a memorial to the congress of the United States relative to the Santa Fe trade. It tells of an expedition of traders to Santa Fe in 1812 from St. Louis, though it is not specifically stated that they went over the Santa Fe trail.

The early Session acts of the Missouri legislature, starting in 1824, contain many interesting resolutions and memorials to congress on all manner of political and historical subjects. Incidentally the Missouri constitution of 1820 starts with the preamble that the citizens of the state agree to form and establish a free and independent republic by the name of the state of Missouri.

Missouri was one of the pivotal states in the history of this country. It was made such in the ancient fight in congress over the slavery question, which took up the admission of free and slave states and considered the balance thereof in congress. Missouri was also a pivotal state in yet another and larger sense—she was the jumping-off place for that wild and unknown country called the Wild West—the land west of the Missouri river. She made the midway point between the frontiersmen of Kentucky and those of the great plains, occupying a generation of history herself as a frontier commonwealth.

Congregational Church Notes

The subject for next Sunday morning's sermon is "The Voice of God."

The church school convenes immediately at the close of the morning preaching service.

At seven o'clock there will be an illustrated lecture entitled "Touring in the Southwest," given in the vestry under the auspices of the Christian Endeavor Society. The regular six o'clock meeting of the Society will be omitted. The lecture is a home missionary lecture put out by the Congregational Church Building Society and is composed of 69 colored slides. The first twenty-one slides in this lecture describe the Middle West, lakes, rivers, farm life, sports, and even cyclones, as well as churches. Through scenes in Kansas, Colorado, and Oklahoma one is hurried into New Mexico and Texas, and at El Paso and Juarez sees life on the Mexican border. Church efforts that have succeeded and some that have failed are faithfully presented. Making stops at Birmingham, Alabama, and Atlanta, Georgia, the tour ends at the National Capital. The lecture shows the adaptability of Congregationalism, and of the Building Society as its agent, to those parts of the country where it has in the past been little cultivated.

The boys in the pastor's training class meet in the parsonage Monday afternoon at 3:30. The girls are meeting with Mrs. Sarah Parlin at a time arranged by her.

How Firestone Has Reduced the Cost of Tire Service

Size	Jan. 1921 Prices	Jan. 1922 Prices	Reduction
30 x 3 Fabric	\$18.75	\$ 9.85	47%
30 x 3 1/2 "	22.50	11.65	48%
30 x 3 1/2 Cord	35.75	17.50	51%
32 x 4 "	56.55	32.40	43%
33 x 4 1/2 "	67.00	42.85	36%
33 x 5 "	81.50	52.15	36%

HOW the cost of building quality tires has been brought down to the lowest level in history was explained by H. S. Firestone, President of the Company, to the stockholders at the annual meeting on December 15, 1921.

1. All inventories and commitments at or below the market.

2. Increased manufacturing efficiency and volume production reduced factory overhead 58%.

3. Selling costs reduced 38%.

Mr. Firestone stated, "This reduction in prices is made possible by our unusually advantageous buying facilities, and the enthusiasm, loyalty and determination of our 100% stockholding organization."

"Due credit must be given to Firestone dealers who are selling Firestone tires on a smaller margin of profit. This brings every Firestone saving direct to the car-owner."

The saving through first cost plus the saving through high mileage doubles Firestone economy and is daily adding new fame to the Firestone principle of service—

SOUTH WATERFORD

Bear Mt. Grange, No. 62 met in regular session Saturday evening, March 11, with worthy Master E. K. Kilgore in the chair.
Lady Assistant Steward Ardelle Kimball and Assistant Steward John Kingman elect, who were not present at the regular installation of officers being present, they were installed by Past Master W. K. Hamlin. The following program was then given:
Opening Song Chorus
Roll Call of members to be responded to with true stories, jokes or songs.
Lecturer's Number, Contest of skill in walking a straight line. The first prize was won by W. K. Hamlin; the booby by George Decker.
Vocal solo
Question: Resolved, That it is more desirable to have a wife who is even tempered and amiable, though incapable and slack than one who is smart and thrifty, but quick tempered.
Affirmative—Harold Pike, Flora Abbott.
Negative—A. L. Sanderson, Frances Grover.
Neither of the men appointed to open

the discussion being present, the women were obliged to start the talk. The men present who spoke at all chose their words with care, made short speeches and were particular to state that their experiences having always been with neatness and thrift, they much preferred this kind.

The straight line contest proved exciting, there being a tie for first honors between W. M. E. K. Kilgore and W. O. W. K. Hamlin, two lines were provided and the rivals proved well matched though the prize was finally won by W. K. Hamlin. Apples were served for a treat. The next meeting will be on Saturday, March 25th, with a box dinner at noon.

Asked to write a composition on "Responsibility," little Willie produced this: "Boys has got two buttons to their suspenders to keep their pants up and when one button comes off there's a lot of responsibility on the other button."

RELY TOO MUCH ON MACHINES

Writer Laments the Lack of Personal Responsibility Discernible Among the World's Workmen

Writing in the Scientific Monthly on the value of handicraft in the re-education of wounded soldiers, Capt. Frank A. Waugh of the sanitary corps, U. S. A., says:

"It is a great defect of modern society that it depends too much on machinery. Everything we touch is machine-made. The common laborer in particular hardly ever sees or touches anything but machine-made objects. He begins life in a machine-made go-cart, eats canned food from a machine-made table with a stamped-steel knife, fork and spoon, dies in the hospital in a machine-made bed, is buried with a machine-made coffin and marked with a machine-made tombstone. When such a man once makes with his own hands a good basket or leather pocket-book he begins to realize the value of honest craftsmanship—the place of personal responsibility in the day's labor. This is a most fundamental element in human psychology now largely lost in a mechanical world where objects are made by machines, not by men. The men only feed the machines and are themselves controlled by another social machine called a labor union."

PERMANENT "NO MAN'S LAND"

Sites of Probably One Hundred Villages in France Too Dangerous to Use Again.

Fifteen villages in the Aisne district, destroyed by war, will never be rebuilt. There are 17 towns in the Marne district which will be abandoned, and probably 100 in all of France. For many years, at least, the soil on which the villages stood will not even be tilled. It will become a permanent No Man's land.

According to government advices, the sites of these villages are too dangerous to be used again. In order to avoid loss of life the government has purchased the land on which the villages stood and will keep possession of it until it can be made safe.

These sites are the ones often fought over, on which the ground has been turned over and over again, burying explosives of all kinds to unknown depths. There is no trace of buildings left in the 15 villages, so the refugees faced more than the usual hardships. They returned, however, and lived in the worst makeshift caves and dug-outs.

Only signs maintained by the government will mark the sites of the villages, warning people of the lurking dangers.—Stars and Stripes.

Chinese Silk Trade

The American demand for silk in China has greatly increased in the last few years until at the present time about 25 per cent of the Chinese silk is sent to the United States. This is the result of American enterprise more than that of the Chinese. The Japanese silks had been in favor for a long time with the manufacturers of this country, but it was well understood that the quality of the Chinese was superior, but it was not adapted for use in this country because of the manner in which it was woven. An American manufacturer secured a moving picture reel showing the Japanese methods of manufacture, and as a result the Chinamen were induced to change theirs to a system to conform with the demands of the occidental customers, and the industry has accordingly taken a great jump.

Profitable Investment.

There was once a noble college man, says Harvey's Weekly, who was noted for the profusion with which he spent, wasted and lost money in everything he did, and who kept up the practice for some years in business, after he left his Alma Mater. He disappeared for a few years, and when found again he was working on a farm. A friend asked how he was getting on, and he replied with enthusiasm:

"Splendidly! Top wave of prosperity!"
"But, man, you don't mean that you're making money on this farm?"
"Oh, no! I never expect to make any money. But I'm losing it slower than I ever did before!"

No Tipping Here.

When I first arrived in Venice I noticed large printed announcements in my hotel and in the restaurants, "Vietate la Mancia," and on inquiry I found this meant "tips forbidden," that all over Venice tipping has been abolished, says a writer in the London Daily Mail.

The same rule applies more or less in other Italian cities, but in none, so far as I have seen, so completely and actually as in Venice. The notices are "absolutely" forbidden, others "rigorously" or "severely" forbidden, or "prohibited," others explain more fully that after August 1 tips are "abolished."

Spoiled Dad's Good Intention.

Army life at one time appealed to Sir Hamar Greenwood, recently named chief secretary for Ireland. He has told how at sixteen years of age he ran away from his Canadian home to join the army. His father followed, and found his young hopeful doing sentry duty with all the pride and jauntiness of a born soldier. "The old gentleman was for giving me a sound thrashing then and there," says Sir Hamar. "But I turned out the guard and had him arrested for attempting to rush the sentry."

Which is the worst, jealousy or prejudice? Or are they the same.

Mrs. Trotter, at whose home the Circle meets Mrs. Hinkley, who is always the first on the job. . . . Mrs. Maud McAllister

Miss Cora Pendergast, who "ain't sayin'" but what she has had plenty of chances

Miss Brown, who "sees" things and promptly faints. . . . Mrs. Thankful Cobb

Mrs. Smith, who is thankful there are no gossips in the Circle. . . . Irene Adams

Mrs. Jones, who promises Cy she won't say a word. . . . Mrs. Bertha McAllister

Mrs. Green, who wants no thanks for her work. . . . Mrs. Anna Grover

Rev. Caleb Peters, who just happens to drop in. . . . Mrs. Otis Cobb

Cy Barstow, who delivers groceries and scandalous tales. . . . Winfield McAllister

Johnnie Trotter, the disturber, who helps to keep things moving. . . . Stanley Nelson

There was a large number of the Sisters and Knights present and the local Hicks introduced were very amusing. After the entertainment, refreshments were served and a social hour was enjoyed.

They have been invited to repeat the play at the vestry of the church, Thursday evening, March 23, for the benefit of the Circle.

Inez McAllister and Harold Farrington were Sunday guests of his parents, Edward Farrington of South Paris.

Mrs. F. L. McKeen and Mrs. C. D. Bickford entertained the Sewing Bee at Keewardin Cottage last Thursday. There was a good attendance and a large amount of sewing accomplished, at noon luncheon was served by the hostess, and such a merry company of ladies sat down to the long table and did ample justice to the good things placed before them.

Edwin Allen sold Frank Grover a fine cow from his herd of Durhams last week.

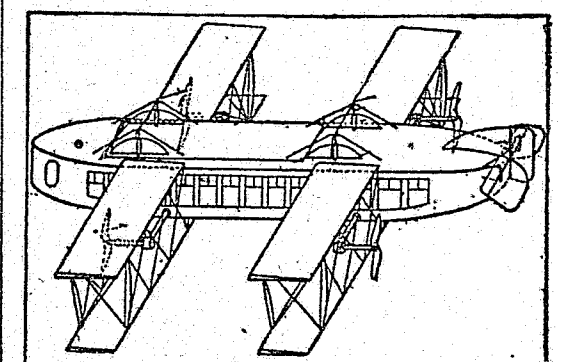

Gloria Grover and Will Day of Conway were Sunday guests of Mr. and Mrs. H. A. Daman of Bethel.

AIRPLANE TRAVEL DE LUXE

What One May Expect When the Flyers Are as Common as Pullman Cars Today.

Doubtless before very long flying machines will furnish all the luxuries of travel to which we are already accustomed on the rail. The aerial parlor car must soon arrive.

Here, in fact, it is, or something very like it. The inventor is Herman

In the Not-Distant Future.

Nordmark of San Pedro, Cal., and his car is in effect a Pullman sustained in flight by a pair of airplanes.

Such a car might carry 80 or more passengers comfortably. Or why not half that number, for real luxuriousness, with a dining compartment, a smoking room, and even a barber shop?—Philadelphia Record.

When Airplane Dived in West Virginia

The airplane diving around in the air over this town Tuesday caused consternation among our gang of guineas. The best we could gather from our understanding of guinea parlance, they thought a big hawk was after them. Frolic, our bulldog, reared his head back and tried to jump over the trees in an effort to catch the monster. The best we could understand dog Latin he thought it was an angel coming in disguise and he knew he had no business lighting around a printing office. And as for ourselves, we really thought when he was flying so low and headed direct for our residence he was fixing to let us down a jug of good old yaller corn just in order to put us next to the system. At any rate, we all enjoyed the exhibition.—Huntington News.

Unfortunate Louvain.

The city of Louvain, Belgium, has been called the "Oxford of the Low Countries." It has been said that the city's chief product once was theology, and that it had a tremendous effect upon philosophic and religious thought.

The Louvain library once contained some 70,000 volumes and about 500 manuscripts, and was attached to the University of Louvain, founded in 1420. Before the world war the university had 2,000 students, but the enrollment exceeded 6,000 in the sixteenth century, says a bulletin of the National Geographic society.

Genius is the master of simplicity, but genius is not necessarily simple.

You can't expect your battery to go on without service any more than you can expect your tires to stand up without air or your motor to work without oil.

Battery service is our business. We have the equipment, the skill and the knowledge that enables us to make your battery last longer and serve better.

We always recommend Willard Threaded Rubber Batteries, but don't get the idea that you can't get the Willard Standard of Service unless you have a Willard Battery. We have only one grade of service here at our Headquarters, and everybody gets it on the same basis whether he's a Willard user or not.

SPENT HALF HER TIME IN BED

Farmer's Wife Tells How Lydia E. Pinkham's Vegetable Compound Made Her a Well Woman

Carter's Creek, Tenn.—"Three years ago I was almost an invalid. I spent half of my time in bed, being afflicted with a trouble which women of a certain age are apt to have. I took Lydia E. Pinkham's Vegetable Compound Tablets and used Lydia E. Pinkham's Sanative Wash. I am a well woman now and have been for two years. I can work as well as any one who is younger and as I am a farmer's wife I have plenty to do for I cultivate my own garden, raise many chickens and do my own housework. You may publish this letter as I am ready to do anything to help other women as I have been so well and happy since my troubles are past."—Mrs. E. T. GALLOWAY, Carter's Creek, Tenn.

Most women find plenty to do. If they are upset with worry, anxiety and troubled with such symptoms as Mrs. Galloway had, the smallest duty seems a mountain.

If you find it hard to keep up, if you are nervous and irritable, without ambition and out of sorts generally, give the Vegetable Compound a fair trial. We believe it will help you greatly, for it has helped others.

That Tired Feeling

Is Just As Much a Warning as

"Stop, Look and Listen." It indicates run-down conditions and means that you must purify your blood, renew your strength, and your "power of resistance," or be in great danger of serious sickness, the grip, flu, fevers, contagious and infectious diseases. Do not make light of it. It is serious. Give it attention at once. Ask your druggist for Hood's Sarsaparilla. He knows this good

old family medicine is just the thing to take in spring for that tired feeling, loss of appetite, debility. It is an all-the-year-round medicine, wonderfully effective in the treatment of scrofula, catarrh, rheumatism and run-down after-disease conditions. "My husband has taken Hood's Sarsaparilla every spring for years, and it always puts him in shape. He is 58 years old." Mrs. N. Campbell, Decatur, Ill. A mild laxative, Hood's Pills.

WHATEVER THE WEATHER OUTSIDE
IS, IT IS SPRINGTIME NOW IN
THIS STORE

Our annual exposition of spring fashions is now ready. Regardless of our claims and just pride in past expositions we can conservatively say that this year's showing eclipses all our past efforts.

It represents our greatest efforts and we feel certain the people of Norway and vicinity will give it their approval. One must needs to go some few miles from the Twin Towns to find such large and carefully selected stocks of Dry Goods and Goods Apparel.

But we cannot adequately picture with mere words this exhibition. You must see it, we shall be pleased to show you.

Many late arrivals of new and beautiful things are being added as they come in from day to day adding to the already large stocks.

The exhibits must be seen to be appreciated and we extend to everyone a most cordial invitation to inspect our displays while at their best.

BATES—WEST PARIS

Mrs. Mark Richardson and two daughters, Doris and Barbara went to Lewiston Friday to remain until Mr. Richardson, who is in the hospital is out of danger. The Federated church has given Rev. H. P. Aldrich a unanimous call to remain another year.

The annual meeting of the Goodwill Society of the Universalist church was held last week Wednesday afternoon. Mrs. L. C. Bates who has served as the President for sixteen years resigned and in her few well chosen words of address to the society she commended them for the loyal support they had given her and many kindnesses shown and wished for them to continue the same with her successors. Mrs. Jennie Bates responded in behalf of the society with regrets, remembering with esteem her official capacity and her many acts of forbearance, the never failing good will and kind words, presented her with a pendant set with a Mt. Mica Tourmaline, which was a very pleasant surprise to Mrs. Bates. Following are the newly elected officers:

Honorary Pres.—Mrs. L. C. Bates.
Pres.—Mrs. E. R. Davis.
Vice Pres.—Mrs. C. H. Martin.
Sec.—Mrs. L. M. Mann.
Treas.—Doris H. Lane.

Dr. F. E. Wheeler has announced that he has sold his place and practice here to Dr. W. B. Raymond of South Paris and expects to move to Waterville. Dr. Wheeler has had a large practice and successful and many regrets are expressed. Through the heaviest work he was out day and night. In the month of February he made a thousand calls. It told on him when at one time he had to give up with a cold for about a week. His idea in moving is to a place where there will be less of long winter rides to reach the sick. He went to Waterville a day or two first last week.

Rev. and Mrs. O. E. Barnard and child of Norway visited Rev. and Mrs. H. A. Markley Friday. Mr. and Mrs. L. H. Penley and son Donald of Portland visited her mother, Mrs. C. A. Ridlon recently. Mr. and Mrs. Lewis Mann were in Lewiston, Thursday. Mr. and Mrs. G. H. Lane have returned from a several weeks visit to her sister, Mrs. Bridge's in Mechanic Falls.

Following are the officers elected Sunday in the Universalist S. S. for the ensuing year:

Supt.—Mrs. L. C. Bates.
Asso. Supt.—Mrs. E. R. Davis.
Sec.—Reynold Chase.
Treas.—L. C. Bates.
Librarian—Mrs. Addie Mann.
Pianist—Doris H. Lane.

Byron Barker went to Worcester, Mass. Mrs. True the other High school teacher went to Auburn Monday.

Mrs. Isa Perkins is much improved in health.

G. W. Q. Perham lost a cow recently. Cullen Abbott of Pinhook was sick for a few days but is better.

Several friends of Mrs. E. J. Thompson gave her a surprise party, March 16, the occasion being a birthday and it was a surprise indeed. It being so near St. Patrick's Day it was suggested that Mrs. A. C. Jackson give some Irish recitations, which she did in an entertaining and pleasing manner, after which a bountiful supply of dainty refreshments were served. Mrs. Thompson was the recipient of many presents, among them a gold ring, a bank check, vacation pinks, glass flower basket, hand bag, two boxes chocolate and other things. As we glide gently down the stream of life, these pleasant little stones are like rays from the light house across the waves.

HEBRON A BOYS' SCHOOL

After 118 years of co-education an action has been taken after prolonged debate to convert the historic Hebron school into a boys' school exclusively.

The legality of the action of the Hebron Academy trustees is questioned. Hebron is an old institution. The first land grant, it is stated, stipulated that it should be for the education of men and women.

Hebron was given the Starbuck home, erected for women students. It also has the use of the income of a fund of \$150,000 given by the Starbuck estate.

Hebron received \$25,000 when it was designated as a fitting school for Colby College.
